Description:

Calcium Bentonite Clay: Natures Pathway to Healing What if there was an all natural substance to be found on our planet that would fix what ails you and not harm what's not broken? Would you be interested? You bet your sweet vitamins you would! This age old, natural curative solution is waiting for you. Welcome to the world of Calcium Bentonite Clay. Eat clay? You've got to be kidding! is the first sentence in Perry A's book. The last sentence is Now, go eat some clay! Between the pages of the book, you will be convinced that it is time to go eat some clay. Perry A astounds and captivates readers while introducing them to intriguing pathways to healing by drinking and topically using Calcium Bentonite Clay. Her study of Bentonite Clays since the early 1990s — coupled with a background in chemistry, biology and veterinary science — contributes to her knowledge base for understanding the intricate workings of clays. She is gifted at simplifying complicated chemistry, giving readers easy insights in understanding how Calcium Bentonite Clay works to support the body into returning to its natural state of well-being. If you care about your health, this book and the fountain of knowledge between its pages are what you are seeking.

TERRIFIC resource on healing clay! (Be aware that this book is Perry A's new revised version of her other book. So there is no need to buy the other one.) This book will tell you everything you need to know about how to use calcium bentonite clay for healing. It's written in a concise and easy-to-follow format and is invaluable for both practical instruction and inspiration. Do as it instructs and you will quickly see and feel a difference for yourself! The personal testimonies are inspiring and will encourage you as you experience your own healing. ENJOY!
