I have only made it about 1/2 the way through this book so far but I have enjoyed spending my lunches learning PowerShell. I find the chapters easy to read and the examples helpful. The labs at the end of the chapters build on what I have learned. I just finished the Review Tasks for Chapters 1-6 in the back of the book these gave me more opportunity to put what I learned in those chapters to work. I do find that it is not uncommon for it to take me more than one lunch to do a chapter. I do like to try out the different commands as I am reading which does slow me down some.
