Description:

The world can change forever in a single...SPLIT SECONDMichelle Maxwell has just wrecked her promising career at the Secret Service. Against her instincts, she let a presidential candidate out of her sight for the briefest moment, and the man whose safety was her responsibility vanished into thin air. Sean King knows how the younger agent feels. Eight years earlier, the hard-charging Secret Service agent allowed his attention to be diverted for a split second. And the candidate he was protecting was gunned down before his eyes. Now Michelle and Sean are about to see their destinies converge. Drawn into a maze of lies, secrets, and deadly coincidences, the two discredited agents uncover a shocking truth: that the separate acts of violence that shattered their lives were really a long time in the making- and are a long way from over...

Sean King and Michelle Maxwell are among my favorite fictional detectives and in Split Second author David Baldacci spins a tale about how they first met and, eventually, became partners with their own agency. It's an interesting story; one that details how a momentary distraction caused King to look away at the precise moment that an assassin shot the presidential candidate he was supposed to be protecting when he was a Secret Service agent. It also explains how Maxwell wound up suspended eight years later when a candidate she was protecting was kidnapped. That should make this a 5-star novel but Baldacci, in my opinion, doesn't quite make the villain and his henchmen very convincing. They are cartoonish more than menacing; cutouts rather than fully realized characters with believable motives. Baldacci does try to explain the villain's reasons by saying he is insane but... well, that's just not really believable given the length of time that passes between the death of one candidate and the kidnapping of another. It is, in fact, not very believable when it comes to explaining the assassination. That said, Baldacci does a nice job fleshing out King and Maxwell, which makes this a 4-star story rather than a 2-star or 3-star novel. As a reader - or, in this case a listener - I enjoyed the interaction between the two protagonists. I also liked the way Baldacci painted both of them: King, more reserved, Maxwell, more action oriented. As I said, King and Maxwell are favorites of mine and I can only hope that in subsequent novels Baldacci brings readers fully realized villains with believable motives.
