Description:

Meet a man forced to live in a fast changing and godless society. He faced fears about the future, concern for his safety, and the discouragement of world that seemed to be falling apart at warp speed. Sound familiar? His name was Daniel, and with the power of hope, humility, and wisdom, he not only thrived, he changed an empire while he was at it. Though he lived thousands of years ago, he has a much to teach us today.

This book provides a clear and very challenging answer to anyone who wonders whether Christians can truly have an impact in today's world where Christianity is under increasing attack. When the world around us is charging Christians with being intolerant and unloving, it's time to look at the models of people like Daniel, who despite being a slave, was able to influence a nation through his personal example of faith. This is a book that gives us hope and a better understanding of just how we are to live. Our job isn't to legislate or otherwise force biblical standards on others, but rather to work hard personally to show how much God has changed our lives so that his work will continue in us and that as a result, others will be drawn to him. Read it and thrive.
