Description:

Retells the story of King Christian X and the Danish resistance to the Nazis during World War II.

I have read the negative reviews of those who point out that the story is not true, and I too wish the story as written were true. However, I personally, cannot compare it to Number the Stars, which is also excellent, because they are different types of books for an entirely different audience. For younger children, particularly, this short, simple, beautiful story of the commitment of the Danish King and people to protect and save the Jewish countrymen from Nazi persecution is inspiring and lovely. It's a favorite book of ours for the spirit of the story, and the unspoken challenge - what if we all chose to stand beside others to protect them and their freedoms, even at risk to our own lives? It isn't in the book, but it's the thought that always follows for me. This is a story of finding a creative solution to a horrific, threatening problem. It is the story of the commitment of a nation to protect all of its people. Those lessons are beautiful, and definitely historically accurate to the spirit of the Danes in WW2, though the details are not consistent with fact.
